

# Advance your simulation skills in 2023

with training from Mater Education and the world-leading Center for Medical Simulation (CMS)

## CMS Healthcare Simulation Essentials: Design and Debriefing Course

 **May 16–19**

 **Mater Education**  
South Brisbane campus

- Suitable for accredited practitioners and those with an interest in critical care, emergency medicine, obstetric, and neonatology specialists.
- Facilitated by internationally renowned Harvard Medical School's faculty member Dr Jenny Rudolph.

## Advanced Instructor Course

 **May 23–26**

 **Mater Education**  
South Brisbane campus

- Only available to those who have completed the Essentials course.
- Participants will build on skills learned in Essentials course, learning how to run a debrief and provide feedback on simulations.
- Dr Gabriel Reedy, Program Director for the Masters in Clinical Education program at King's College London, will join the faculty.
