

# First Aid and CPR

**Nationally recognised First Aid and CPR training taught by the experts in healthcare.**

Learn best practice skills to be able to respond to an emergency. Our one-day course includes CPR training and is delivered at Mater's hospital campuses. An online learning component is required to be completed prior to attending the workshop.

## Looking for First Aid and CPR training for your organisation?

Our course is designed for anyone who needs a First Aid certificate for employment purposes or seeking First Aid knowledge. It's suitable for community organisation members, teachers, educators, parents and students. We can work with you to deliver bespoke training to suit your needs.

**Scan the QR code for upcoming dates, costs and to enrol.**

# What to expect

Gain the lifesaving skills and knowledge you need to provide a First Aid response.

 **Cardiopulmonary Resuscitation (CPR)**  
and basic life support for adults and children  
(using a model of the human body)

 **Operate an Automated External Defibrillator (AED)**

 **Management of an incident until medical assistance arrives**

 **You'll learn what to do when someone is:**

- unconscious
- choking
- injured
- in shock
- having a stroke or heart attack
- bitten by a spider or snake
- experiencing an anaphylactic reaction
- having an asthma attack
